February 2019 PBIS focus

The Elementary PBIS committee is looking for parent or business sponsors that are willing to match a monetary dollar amount to a collective student Bomber Buck savings account that would go toward the purchase of another Water Bottle Refilling Filtration System that would be installed in the elementary section of the building. The two water filtration systems that are currently in the school building are very popular among our elementary students, but they are located quite far from the elementary classrooms and are not convenient for students to go to fill water bottles easily. The students will be given the opportunity to collectively build a savings account using their earned Bomber Bucks for this water bottle refilling system, but the students would need actual money in order for the school to make this purchase happen. If you are interesting in matching Bomber Buck funds to help the students make this new water system a reality in the elementary section of the building, please contact Lisa Greene at 920-803-7206.
